Experienced in working with APIs and creating dynamic, user-friendly applications.

SKILLS

Languages: HTML, CSS, SCSS, JavaScript
Technologies: ReactJS, Tailwind CSS, Chakra UI, Framer Motion, Formik, Git, GitHub, Vite
State Management: Redux, Redux Toolkit, Context API

EXPERIENCE

Front-End developer Intern   Feb 2025 – July 2025
web masters

- Built responsive and interactive UIs using React.js, JavaScript, Tailwind CSS, Framer Motion, and Zod for projects including landing pages and a complete e-commerce website.
- Collaborated with a team on an educational platform, developing dashboards with role-based access
- Collaborated with backend devs to design efficient API endpoints.
- Used Redux and Zod for state and data validation in complex features.

PROJECTS

Store   *https://osama263.github.io/store/*

- E-commerce app with product listings, cart, wishlist, and user authentication. Includes an admin dashboard for managing products. Users must log in to purchase.

Meditate   *https://osama263.github.io/maybe/*

- Portfolio site showcasing projects with modern tools and interactive UI for an engaging user experience.

EduPress   *https://osama263.github.io/edupress/*

- Collaborated on a responsive web app with secure, role-based access for students and admins; developed the authentication system with login and signup for both user types.

Cafe   *https://osama263.github.io/cafe/*

- Responsive React site with categorized menus and real-time content updates. Includes admin dashboard for managing menu items, categories, and staff.

Journey   *https://osama263.github.io/journey/*

- Applied responsive design to deliver a consistent, accessible experience across all devices.

EDUCATION

Delta Higher Institute
- Bachelor's degree in Management Information Systems   2018 – 2022
